- MyProcureNet™ allows you to control your Procurement Spend to reduce your Enterprise Cost.
- MyProcureNet™ handles both direct and indirect goods and services purchased and address the corporate procurement problem by automating and streamlining the purchasing process.

About MyBiz

- MyBiz has emerged as the Asian leader in spend management and strategic sourcing solutions with more than 20 years' experience.
- Our proprietary software was awarded with "Procurement Consultancy Award" in the World Procurement Awards 2019, which was soon after winning the "Solution Provider of the Year" in Asia Pacific Procurement Awards 2018 from Procurement Leaders. Representing one of the best and most forward thinking innovators, MyBiz was awarded with "ISV Partner of the Year" by Microsoft Malaysia in 2018.
- MyBiz has been recognised by Gartner since July 2013 - the 1st time any Asian vendor appeared in the Magic Quadrant for Strategic Sourcing Application Suites. Gartner further ranked us as #1 in Savings Tracking and Category Management.
- Our service value proposition lies at the intersection of procurement business consulting, procurement business process outsourcing (BPO) and analytics, providing access to spend optimization specialists at a lower cost. We have successfully delivered hundreds of millions in savings for our clients.
- Our team of highly skilled procurement specialists and software developers are able to configure any module to meet your local and specific requirements.
