What is MySupplierNet™ ?

MySupplierNet™ is a comprehensive cloud solution enabling the management of an enterprise's interactions with the organizations that supply the goods and services it uses.

The goal of MySupplierNet™ is to streamline and make more effective the processes between an enterprise and its suppliers.

MySupplierNet™ utilizes both business rules and software and is part of the information flow component of supply chain management.

Our solution creates a common frame of reference to allow effective communication between an enterprise and suppliers who may use different practices and terminology.

BENEFITS OF MYSUPPLIERNET™
